## RELIGION VERSUS THE FEUD.

Dr. Guerrant Talks Interestingly of Work in Kentucky Mountains.

(By Passie Fenton Ottley, in Atlanta (Ga.) Journal.)

(Continued from last issue.)

Surely, I started a meeting at Morehead, the seat of Rowan county, where the Martin-Tolliver feud had seen twenty men fall, and where there was not a church. There was no more fighting in the feud, and now there are three good churches. One of the most desperate feuds was the French-Eversole feud, of Perry county. Twenty-one men were killed, the courthouse was burned and no court was held in that county for four years.

"Finally Judge Lilly, a brave man, took his life in his hands and went up there, held court in a tent and sent twenty men down to prison. The fighting and the terrible animosity went on, however, and when I went to preach the gospel there at Hazard there was little peace or good will there.

"Some of the worst men were in jail. I preached to them there, and some of them wished to be baptized. The best proof of the softening power of the gospel is that one of the noblest and bravest men in the county, father-in-law of one of the principals in the quarrel, who had been made an elder in our church, went into the jail with me and shook the hand of those men, his enemies, in token of his forgiveness. The love of God can cast out wrath."

"And in these years of preaching among them, have you found that they heard you gladly?"

"The proof of their desire is their willingness to come for miles—ten, twelve, fourteen—on foot, over mountains and through mire, to hear the preaching. I had a large tent, which I would spread in a mountain locality, and word of the meeting would go round. I usually stayed about ten days in the same place, and during that time the same people would come every day and stay all day."

"They often arrived as early as 7 o'clock in the morning. I always began preaching, or rather teaching, because I never preached to them before 9 o'clock, and continued, with slight intermission, until 4 or 5 in the afternoon."

"Could you talk on a stretch like that?"

"Well, there were a few breaks. At noon they would go to the spring for a drink, coming directly back, however."

"They never seemed to care to eat in the middle of the day. Then we would have intermission for music. Mr. Estey had made for me a little cabinet organ, of very sweet tone, which shut up like a box, and defied wear and weather. I always carried this, and one of my little girls to play on it. The people would listen with delight as little Ann played and sang old gospel tunes to them."

"There are now forty Presbyterian churches in those mountain regions, and the people in them are earnest Christians as are to be found anywhere."

"ing up on the Quicksand, a river sixty miles long, without a church. "Among others came old Uncle Nym Mackintosh, the oldest man in that settlement, and asked that he and his wife, Nancy, might be baptized that day. I declined, saying that they must wait until the end of the meeting."

"The old man drew up his gigantic height and said: "That's all right, Doc, for these young folks that's got time, but me and Nancy never has had the chance to be baptized before. We live way over beyond the Quicksand, and if it comes on to rain and that river swells us old folks can't get back. You won't let us lose our last chance, Doc?"

"It is needless to say I baptized the old couple. There is a church now on the Quicksand where the tent stood that day, a church that holds two prayer-meetings a week. In that old church old Uncle Nym Mackintosh is an elder."

"That day when he was baptized his son, Dan Mackintosh, who had been a wild fellow, was converted. He walks today through those mountains as a missionary. The last time I saw him he and his wife had walked fourteen miles, barefooted, to service. There is no place in the world, my friend," said Dr. Guerrant, "where the old gospel religion is more desired and more appreciated than in those Kentucky mountains, 100 miles from the Blue grass. We need help to take it to them."

Dr. Guerrant served these people for years as the evangelist of the Synod of Kentucky. His health failed and he was compelled to live a quieter life. He now fills a church at Wilmore, Ky., but has gone out from time to time to conduct services, such as those he is conducting in Atlanta, all over the United States. A peculiar vitality of manner accompanied by great earnestness and a wonderful gift of speech makes him a powerful man in the pulpit, and his meetings are always productive of results. With all this outside work, Dr. Guerrant's heart always turns to his Kentucky mountains and their people. The work he is doing for them now is under the head of the soul winners' society, of which he is President. This society is unsectarian and un denominational, and is supported by free will offerings alone. It now numbers 500 individual Christians from twenty different States and of every denomination.

The work lies in the effort to take the gospel to the two million and a half people of our own blood who are scattered through the mountain regions east of the Mississippi. Tens of thousands of them never saw a church or heard a gospel they could understand. Following Christ's admonition to "begin at Jerusalem" this society of soul winners believes that here among the mighty summits of the Blue Ridge, the Alleghany and the Cumberland lies our Jerusalem. These people for whom they strive are Americans, Virginians, Kentuckians, Tennesseans and North Carolinians, the children of the hills, our neighbors, our kith and kin. No work could be nobler than this which strives to save and uplift them.

## WORLDS TO CONQUER.

Southern Cotton Manufacturers Have a Big Field Ahead.

There are yet "worlds to conquer" for the cotton manufacturers of the United States. True, their exports of cotton cloth have increased from 138,000,000 yards in 1890 to 288,000,000 yards in 1900, and would doubtless have been much greater in the last year but for the extremely high price of cotton. Yet when the exports of cotton goods by the United Kingdom for the year 1900 and preceding years are examined it becomes quite apparent that there is still a large opportunity awaiting a people who can plant the factory beside the cotton field and operate it with cheaper coal, better machinery and more skillful and effective labor than that of the nation which transports its cotton many thousands miles, brings its coal from thousands of feet below the surface and yet distributes more than 5,000,000,000 yards of cotton goods to the world every year.

The "Accounts Relating to the Trade and Navigation of the United Kingdom for the year 1900," which has just been received by the treasury bureau of statistics, shows the exportation of cotton cloth from the United Kingdom to the various parts of the world for the years 1898, 1899 and 1900. It shows that the total exportation of cotton piece goods of all kinds in 1900 was 5,034,250,000 yards, or about 20 times our own exports for the year, despite the fact that four-fifths of the raw cotton from which it was made was produced in the United States. The total importations of raw cotton into the United Kingdom in 1900 were 15,736,172 hundredweights, of which 12,190,169 hundredweights were from the United States, 2,780,722 from Egypt, 332,776 from India, 270,403 from Brazil, and 149,011 from other countries. The total value of the cotton imports into the United Kingdom in 1900 was \$41,027,181, or \$199,859,000, and the total value of cotton manufactures exported from the United Kingdom in that year was \$62,032,313, or \$306,000,000.

True, the United Kingdom has not materially increased her exports of cotton goods in the decade during which the United States has more than doubled her exports in that line, yet she has steadily and steadily held her own in the markets of the world against the aggressions of other countries. The exports of cotton piece goods from the United Kingdom in 1890 were 5,124,966,000 yards, and in 1900, as already stated, 5,034,250,000 yards. Germany's exports of cotton manufactures, which are stated in her official publications in kilograms, and not in yards, increased from 28,285,400 kilograms in 1890 to 37,156,000 kilograms in 1900. From France the exports of cotton manufactures in 1890 were 17,286,000 kilos, and in 1899, 32,003,000 kilos. Thus, while the United States has shown a greater percentage of growth in her exports of cotton manufactures than that of any other nation during the decade, the fact that Europe, although buying most of its cotton from the United States, exported in 1900 more than \$100,000,000 worth of cotton manufactures while our own manufacturers were exporting about \$21,000,000 worth, suggests great future possibilities for a people for whom nature has done so much in her supply of the raw cotton and of all the requirements for its manufacture.

Prof. Ivimey, of London, Md., suffered terribly from neuralgia of the stomach and indigestion for thirteen years and after the doctors failed to cure him they fed him on morphine. A friend advised the use of Kodol Dyspepsia Cure, and after taking a few bottles of it he says, "It has cured me entirely. I can't say too much for Kodol Dyspepsia Cure. It does what you eat. F. C. Duerksen."

When you are bilious, use those famous little pills known as DeWitt's Little Early Risers to cleanse the liver and bowels. They never gripe. F. C. Duerksen.

## PURE HELIUM.

Its Discovery Would Necessitate the Expatriation of Much Money.

Prof. Dewar, in a recent lecture before the Royal Institution, expressed his disappointment that the experiments in the laboratory of the institution had failed to produce pure helium. He said that he longed to find a rich man generous enough to supply funds necessary for the discovery of pure helium; the expenditure would be very great. It is said that his discovery would enable the realization of Lord Kelvin's idea that a temperature within five degrees of absolute zero can be reached. He also said that he did not know why the reaching of absolute zero should be regarded as hypothetical. Scientific American.

## Number of Suicides in Paris.

The number of suicides in Paris is very large at present, and the chief cause is thought to be the general retrenchment following the exposition, which has thrown many people out of work. Throughout France, however, suicide seems to have been increasing for some time. In the five years ended January 1, 1901, the number of suicides was no less than 27,000.

Counterfeit of DeWitt's Witch Hazel Salve is liable to cause blood poisoning. Leave them alone. The original has the name DeWitt's upon the box and wrapper. It is a harmless and healing salve for skin diseases. Unequalled for piles. F. C. Duerksen.

"It is the little rift within the lute which ever widening, makes the music mute." It is just a little rift in the health of a woman often, which gradually takes the spring from her step, the light from her eyes the rose from her cheek and the music from her voice. Perhaps the bug-bear which has frightened the woman from the timely help needed at the beginning has been the dreaded questions, the obnoxious examination, the local treatment, there is no need for these. Nor is there need for continued suffering. Dr. Pierce's Favorite Prescription can be relied on by every woman, suffering from what is called "female troubles," to renew the health and cure the disease. Women are astonished at the results of the use of this medicine. It not only makes weak women "robust and rosy cheeked," but it gives them back the vigor and vitality of youth.

Free. Dr. Pierce's People's Common Sense Medical Adviser, 1008 pages, is sent free on receipt of 21 one cent stamps to pay expense of mailing only. Address R. V. Pierce, Buffalo, N. Y.

## OLD TIMES RECALLED.

Doll's Dress Made of a Very Interesting Material.

A little girl living in the vicinity of Dupont Circle is the possessor of a doll dressed and presented recently by a well-known lady who claims to be one of the "oldest inhabitants" of Washington, says the Star. The doll's dress is made of an interesting piece of material that is eloquent of the sentiment that prevailed for the young queen at the time of Victoria's coronation. It is of chintz, a fabric closely resembling calico, but which in those days could not be purchased for less than one dollar a yard, and in design shows a bunch of flowers composed of the roses of England, the thistle of Scotland and the shamrock of Ireland alternating with the gracefully wrought monogram, V. R.—Victoria Regina.

The doll's dress is made from the gown worn by the "oldest inhabitant" at the age of nine, and was the first pattern seen in America, about a month after the late queen ascended the throne of England.

The lady relates with pride how she was the envy of all the fashionable little maids of Washington when she appeared at church in her chintz gown, the design of which became soon the rage of the season.

## South Makes Giant Strides.

The entrance of the south into the trade of the orient is spoken of as a novel feature of our commercial expansion. In the production and exportation of cotton the southern states have made gigantic strides of late.

## HOW TO ELEVATE THE PRESS.

Rev. Lyman Abbott—"The proprietor must put influence above commercial success. To secure this influence the editor must have both definite and intelligent convictions on the subjects on which he wishes to exert influence. He must be fair to those who do not share his convictions. He must convince his readers that he is seeking the truth, the whole truth and nothing but the truth, not a personal or sectarian advantage. He must deal with topics which are both of real interest and of real importance to the public."

Cardinal Gibbons—"The influence of the press would be much increased by a strict adherence to facts in recording events and by a scrupulous accuracy in reporting the expressions of public men."

Andrew Carnegie—"The paper which obtains a reputation for publishing authentic news and only that which is fit to print, and which editorially writes temperately, and always decidedly, will steadily increase its influence."

Bishop Henry C. Potter—"By the education and elevation of its readers. A decent, intelligent, thoughtful constituency will compel a decent press."

By inference the kettle would select the pot black. Remove the beam from thy eye, brethren, that you may better see the little mote which is in thy brother's eye. For twenty years and more we have been identified with newspapers, their publishers and editors, and during that time we have taken care of the conduct and methods of our brethren of the quill and we do not believe that they as a body in any way try to evade the truth. But then there are men of the highest calling, brethren of the cloth, who in their sacred dealings speak without sincerity, and the most damaging phase of their work is when called on to preach the funeral of a man who has all his life ignored the gospel teachings, but because of respectable family connection he lauds his works and carries his spirit up and above the clouds, far beyond the stars, a ransomed soul, on the theory that may be, some how, somewhere, accepted the gospel's way. This in face of the scripture, "If you do not confess me before men I will not confess you before my Father." Such talks are hurtful to the high calling, and if hurtful here are also to the religious and moral sentiment of our country. If the preachers would call things by name, if they would talk of hell as the lake of fire and the unbelievers as lost and for ever damned in that hell, there would be more seriousness on religious matters, the truth would spread to the earth's remotest bound and every member of the Church of the Living God would be glad to be an active adjunction to His kingdom. Such preachers are exceptions and of such we write. And of the rich we would say, glean from our premises, give unto those who have not. The managers of the great journals would have nothing but facts. It is for this they pay out their money.

Sessions in both Senate and House were held on Sunday afternoon to close the business of the Fifty-sixth Congress.

Republican member of Congress Boering thinks no court officers for the new Kentucky Federal district will be appointed until after July, because the act creating the new district does not go into effect until after that date. If Kentucky Republicans would exhibit gratitude for labor done in holding the Republican party in Kentucky together at a time when it was considered neither honorable or safe to teach Republican doctrines, the Judgeship would go to Hon. A. T. Wood, of this city, than whom no more honorable, capable or just lawyer lives in Kentucky. This appointment is no business of ours, but if rewards are to be handed around for faithfulness the Judgeship would go to Col. Wood.

The statement from our local news gatherer that Mr. W. L. Craig received the nomination for Assessor of Menefee county in recent primary we hereby correct. Mr. F. M. Power was nominated over Mr. Craig by a majority of 81 votes.

Gov. Beckham assigned reasons for pardoning the noted gambler Ed Alvey for gambling, which reflected on the court and prosecution, as they thought. So they undertook exoneration. Well, he hardly think the Governor justifiable in pardoning Alvey, neither do we think competition very commendable in the way of violating laws. Governor Beckham is a pure man, free from political trickery and it is our regret that he allowed himself to play any part in Louisville politics.

## OF INTEREST TO SUNDAY SCHOOL WORKERS.

Important Meeting at Georgetown March 13, 14 and 15.

The State, county and district officers of the Kentucky Sunday School Association hold a conference at Georgetown on the above dates. The object is to promote the Sunday School interests of the State.

The State Association is interdenominational in character, being an organization of the denominations by the denominations. Its plan of work is to organize every county in the State by calling the Sunday School workers together in convention annually, and by the election of a President, a Secretary and an Executive Committee who look after the Sunday School interests of the county under the direction of the State Executive Committee and the General Secretary. The Magisterial districts are organized in the same way. This meeting at Georgetown is a conference of these officers for the purpose of improvement in their work. It is not confined, however, to these officers. All persons interested in Sunday Schools, and especially pastors and Superintendents, are invited. The two evening sessions and the afternoon of the last day are devoted to the work of the individual Sunday School.

This meeting is not in lieu of the Annual State Convention. It meets at Duvalville, August 20, 21 and 22. Any one who contemplates going to Georgetown should send his name at once to Mr. M. M. Hunt, Georgetown, and entertainment will be provided.

Prof. A. M. Lookwood is here with Edison's latest grand concert phonograph. Do you know what it is? It reproduces all sounds, the human voice, and all instrumental music, speaks, sings, laughs, cries, etc. It has a fire foot horn attachment with which to fill the room with its melodies; two hours of charming entertainment. Its renderings will make you laugh and cry. Think of it, for only 10 and 20 cents you can hear 70 choice pieces taken from the voices of companies which to hear would cost you fifty cents for each entertainment. Wednesday and Thursday evening, March 6th and 7th at Court House. Admission 10 and 20 cents.

CORRESPONDENCE.

PINCHUM, CLARK COUNTY.

Corn is worth \$2.50 per buhl.  
The health of our community is good.

Will Burgher has moved to the farm he purchased on the Rucker file pike.

Richard Plannell has rented some corn and tobacco land from John Reese.

Allen Watts has rented 31 acres of grass land from John Reese for \$65.

Sanford Niblick has 2 ewes with six lambs following them.

Most of the farmers have engaged their lambs at 50c for June delivery.

Candidates are plentiful, but will be scarce after April 13.

Pinchum is the banner D. Democratic precinct. The majority in November was 128.

New Firm at Campton.

Messrs. Euster and Firestein, enterprising and successful merchants at Beattyville, who recently opened a store at Campton, have purchased the large brick business house in Campton known as the Center house. Their trade at Beattyville has been very satisfactory and they will no doubt do well at Campton.

If I had Grip I would use Dr. Miles' Pain Pills and Dr. Miles' Nerveine.

Sold at all Druggists.

Residence Burned.

On Wednesday morning at 2 o'clock the residence occupied by W. L. Stout and family, near Owingsville, on the Dr. Lewis farm, was destroyed by fire. The house was insured for \$1,500. The household goods were valued at \$175, on which an insurance of \$1200 was carried. Mr. Stout lost \$150 in cash. His many friends in this county will regret to hear of his misfortune.

Prosecuting Attorney, Charles L. DeWaele, who has passed the three-score mile stone, with a time with the grip; but when seen at his home in Roseman, Mich. the other day, he said Dr. Miles' Nerveine was what cured him.

Bob Taylor on Osteopathy.

When a century later historians are sifting the events of this time for the epoch-making discoveries of science and civilization there will be few chapters more important, I think, than that devoted to the reformation in medicine which will have come about through the acceptance and practice of Dr. Still's system, known as Osteopathy.

At nearly three score and ten Mrs. Galen Humphrey was fighting against odds when the grip attacked her; but she took Dr. Miles' Nerveine, and now her neighbors in Wareham, Mass., remark how well she is looking.

"My Wife Became Anxious."

There is cause for anxiety when a cough hangs on for a year and can't be shaken off. The quickest way to relieve that anxiety is to begin at once the use of Dr. Pierce's Golden Medical Discovery. It is a cough remedy, but it is also a great deal more. In far advanced stages of disease, when hemorrhages have been frequent, and there have been emaciation and weakness, "Golden Medical Discovery" has produced a perfect cure. It increases the supply of the life fluid—blood. It cures the blood from impurities, and sends a current of rich, new blood to build up the weak places in the body with new life.

The "Discovery" is strictly a temperance medicine, non-alcoholic and non-narcotic.

"For one year I was troubled with a cough," writes Mr. H. E. Pierce, of Sumner, Brainerd Co., Iowa. "I continued to cough during the summer and fall, and finally, in the winter, I was obliged to go to a doctor. He gave me a prescription, and so it proved, as the Golden Medical Discovery, which was recommended, cured me. The medicine to effect a cure. Dr. Pierce and his medicine are 'as good as wheat,' as the farmers used to say."

Bad taste in the mouth is removed by using Dr. Pierce's Pleasant Pellets.

Church Elket and Kusim By Summer Coon.

Mr. Editor: I will ask you a few questions which I have all ways been asking in the churches. I only ask the question or information, not that it is any of my business whatever the feeling so much of it has caused me to think may I am a little green horn and not posted on church matters. I wrote three first coming in the seat right at the end of the pew next to the entrance and in a of moving back as the pew begins to fill up the other ladies and men have to crowd and drag themselves over the feet and shine of those first coming and blocking the entrance. How is that? Can't a person see and keep as well as most of the pews as the other? I don't see any difference. I am only asking to get posted better in church matters. I have all ways had the idea if I got in the pew first it would be proper for me to slide back as others come in the same pew I was in, or ought I to hold my seat and let those coming in later tug and drag themselves over my feet and hands with the ladies on. I never could stand to occupy the seat at the entrance and see a lady with a fine organdie silk dress on which might cost her sixty-five or thirty cents a yard having to drag it over my and hooks when I could just as easily slide down the seat a little and save her the weary and painful of scrambling between me and the next pew. Now if it is a green horn idea I am I want to no it then I will hold my first seat let it be where it will. It is a little simple to you in me by asking you such questions but I purpose to keep up with the styles and manners of the country as far as I can now, and if I make a bad break and don't do it all ways like for anybody to learn me better; that is my object in asking the a above question. I don't hardly think I am a subject for the lunatic a slim, but to see me tackle a hog's hole and a old time hocke you'd think I was a deck hand in a saloon or a ground hog slimy publisher. I don't purpose to make any noise on my self but when I open my mouth to speak you can all ways see a quid of tongue green in the west corner of my hash mill, so don't suppose for a minute that I can't back track my self if the snow is grey. Now let us all eat, drink and be merry to-day, for to morrow there will be no telling how high pork and beans may go if Mrs. Carrie Nation should make a charge on our congregations. Good night! All a board for the station house.

TIME TO LOOSEN THE  
Purse Strings  
And Get Ready for Spring Buying!  
The Busy Bee Cash Store

Has not arrived at its present stage of usefulness by chance.

There's no luck or speculation about this business; it isn't the result of fortunate circumstances, but down-right, honest, hard work—work which your interests as customers have been carefully studied at every corner and turn. We did not come here strangers. Our business friends of to-day include many who have known us from childhood up to the present, and they number into the thousands. They know us and they have confidence in our methods of doing business. If you don't believe all this, visit our store during the coming week. We are going to officially open up the

Dress Goods, Wash Goods, Hamburgs, Embroideries and Laces.

Note the Throngs

Of satisfied buyers in each department and you will believe there's friendship in business, for we look upon every customer who leaves a dime or a dollar in our store as a business friend.

Every Corner of the Orient

Has been ransacked to make our store different from any other. Never has it been so beautiful, so full of new things that you want as it is now. Enthusiasm rightly directed always wins.

THE TALK OF THE TOWN.—Our Wash Goods, Hamburgs and Embroideries have always been the Talk of the Town. This season we have made unusual efforts to have them more attractive than ever. Style, Colorings, Quality, Price—these four big items have had every consideration, and you yourself will say it is a beautiful sight when you see our tables and counters piled full of these lovely fabrics. The fashionable ladies had better hasten themselves while the choice exclusive things are still here. Wise men dip into the future; wise women plan for future needs.

FRESH AS APPLE BLOSSOMS are the counter heaps of Dress Stuffs and Women Dainties. The loom artists have caught many a hint from nature and the merchandise artists have made the things almost as cheap for you as if they grew. We might as well attempt to "Paint the Rose" as describe them. Come and see them; rather have your judgment than ours; they were bought for you.

OUR NEW CARPETS, RUGS and MATTINGS are all in. We are showing a big assortment of handsome, high-grade Carpets in this department. A dozen first-class manufacturers are represented in this stock. When you buy Carpets from us it is the same as buying from the mills; you have but our profit to pay, and the patterns you get are the very newest, just from the looms. Look through our Carpet Department and get our estimates.

CLOTHING and SHOE DEPARTMENT.—We are making some special offerings this week in our Clothing and Shoe Department. Our buyers have bought so heavy for spring that we thought it advisable to make slaughtering prices in these departments for a few days to make room for other goods that are to come in. Prices cut half in two on many entire lines of Shoes and Clothing. Bring in your wagons and fill them up; you need the goods; we are willing to make the sacrifice to get the money.

OUR HOSIERY STOCK is chuck full of new novelties for the coming season. We pride ourselves on giving the best values and maintaining the lowest prices on our hosiery. You can find anything you want and anything that is in favor this season in this department.

SMALL WANTS and NOTIONS.—We are always in the lead when it comes to small wants and notions. We are continually showing new things in Belts, Combs, Hair Ornaments, Jewelry and all novelties to be had in the Notion Department. If you don't see what you want ask for it.

There's a bustle to our business. It's wide awake, broad-gauge, up-to-date stock-keeping that's doing it. We turn dull days into busy ones by bringing forth good things and telling you about them. There's a well beaten path that leads directly to our doors; throngs of buyers travel it daily. Get in line and be one of the many who are daily strengthening their business relations with us. We want you to come and tell your friends and neighbors of the many good things we have for them. We want to serve them as faithfully as we serve you. Confidence once established, the rest is easy. Thanking you for past patronage, we are very respectfully,

## From Virgin, Pike County.

W. J. Roberts, farmer of Virgin, Pike county, was in our city on business last week. Mr. Roberts is about 46 years of age and this was his first visit to the capitol of Eastern Kentucky.

Mr. Roberts told us that Mr. Samuel Newson, a pensioner on the government without confidence in any man or set of men, kept his money which he had saved, amounting to \$2,218 in his home, was robbed of every dollar. Mr. Roberts also told us that he was a cousin to the man, Daniel Hall, who was hung at Grundy, Va., March 4th, for the murder of his father-in-law two weeks before last Christmas. He also showed us a small piece of the hackberry tree in which the lad lodged that killed Governor Goebel. Mr. Roberts was a Hardin man prior to the nomination, but when Mr. Goebel won the nomination worked ardently for him. He is an old-time Democrat, not for man but principle, and on the election of Governor Beckham won a \$2.00 hat and \$1.00 shirt.

Mr. Roberts is a married man with two sons—Bud and Thomas, aged respectively 21 and 13 years. Mr. Roberts sent the ADVOCATE to his home. A sad commentary said he that 12 indictments for willful murder were made this term of Pike Circuit Court. The county is Republican and hence the Administration is of like complexion. In a short while Mr. Roberts will go to Florida to see the country.

Mrs. A. E. Lopez, of the little town of Mendota, Minn., told Dr. Miles' Pain Pills and Nerve and Liver Pills and was well in a few days.

## Kept His Word.

Judge Ed C. O'Connell kept his word with Mr. James O'Connell by having him elected Sargent at Arms of the Court of Appeals. Mr. O'Connell is a worthy man, a shoemaker by trade, and will make an efficient officer. Mr. O'Connell was a Federal soldier in the sixties and when many years afflicted with the Democratic party, but more recently with the Republican party.

## DAM MUST GO.

Attorney General Calls Attention to an Obstruction of Licking River.

United States District Attorney R. D. Hill received notice from Attorney General John W. Griggs on Friday, March 1, that one John R. Buckwater had built a dam across Licking river at Falmers, Ky., thereby obstructing navigation. The Attorney General refers the District Attorney to Sections 9, 10 and 12 of the river and harbor act of March 3, 1899, and advises that he take action toward the abatement of the obstruction. The penalty for the offense is a fine not exceeding \$2,000 and imprisonment not exceeding one year, or both, and the abatement of the obstruction by the government.

Mrs. E. J. Masters, of Fairmont, Ind., used Dr. Miles' Nerve and Pills to cure after effects of grip.

For wall papers in suits to match see E. T. Hadden. His patterns are very attractive. His ceilings and walls are as cheap as any in town and he furnishes the borders free.

E. T. Hadden has a fine selection of latest designs in wall paper.

## Tough on the Reporter.

The following story is going the rounds of the Kentucky press: A young newspaper man is the hero (or victim) of a good joke. In his capacity as a local reporter he went out to report an evening party at a house that shortly before had been blessed with the arrival of a new baby. Accompanied by his best girl, he met the hostess at the door, and after the usual salutations asked after the new baby's health. The lady, who was quite deaf and suffering with the grip, thought he was asking about her cold, and told him that, though she usually had one every winter, this was the worst one she ever had; it kept her awake at night, and confined her to her bed. Then, noticing that the scribe was getting quite pale and nervous, she said she could tell by his looks that he was going to have one just like hers, and asked him to go and lay down. The local paper was out as usual the next week, but the local editor has quit inquiring about babies.

President McKinley is slowly recovering from grip and its after effects. 28 41

# DEATHS.

chases for his store at Ezel, and to assist his son-in-law, Chas. E. Duff, in buying his first stock for a new store at Spencer.

Misses Sallie and Lydia Clarke are attending the millinery opening in Cincinnati. They were accompanied by Mrs. Schlegel.

Miss Nannie Berkley left Saturday for Lexington to attend "The School of Photography." Miss M. E. Millikan, principal.

Miss Nettie Priest, of Manston, Wis., and W. R. Lyons, of Chicago, after a visit of two weeks with S. S. Priest, at Sideview, and Miss Mamie Greene, of this city, left on Saturday.

Mr. Elijah Coons, wife and children returned from Albuquerque, New Mexico, Saturday. He and children went in October to be with Mrs. Coons, who has been there for more than 14 years.

Finley E. Fogg, of West Liberty, returned home yesterday. He was a guest at the Phoenix Hotel on Saturday night when the fire occurred in the clothing store which caused considerable excitement among the guests.

Rev. C. B. Day is in a serious condition at his home in St. Paris, O., but Dr. Miles' Nervine and Nerve and Liver Pills pulled him through all right.

## Wild Fire.

Hackney horses are being greatly sought for, and to meet the demand Messrs. I. F. Tabb and T. J. Biggert imported the fine thoroughbred stallion, Wild Fire, last year and within the next year our people will be realizing fancy prices on colts of the great horse's get.

See Wild Fire's advertisement in another column in which appears a true likeness of the horse.

## THE SICK.

J. W. Chenault is on the sick list. Clifton R. Prewitt is improving rapidly.

Miss Lucy Clay has been sick for several days.

Mr. James Greene is quite sick at his home near Grassy.

Mr. Wm. Cartmell has been quite ill for several days past with an attack of grip.

Mrs. Elijah Coons, who returned from New Mexico on Saturday, will soon enter that rest prepared for those who die in the Lord.

We don't do a pulling business; you certainly know what and where you want to buy. We will save you from \$5 to \$10 on a made-to-measure suit.

## Go to New York.

Senator William Lindsay retired to private life on Saturday and on yesterday Hon. J. C. S. Blackburn began drawing a Senator's salary. Judge Lindsay will retain his citizenship in Kentucky but will practice law in the great city of New York. Lindsay is a great man, a profound lawyer, having been from a Kentucky blacksmith to United States Senator.

BARNES—Omar, the little son of Jas. T. Barnes, near Ewington, died of diphtheria and was buried on Thursday at the Montjoy grave yard, near Howard's Mill. His wife and five children who have been sick are improving.

HUNT—Mr. John D. Hunt departed this life on last Tuesday, February 26, 1901, in the 37th year of his age. He was born and reared in the Grassy Lick neighborhood, and for several years was a resident of Colorado. When his brother-in-law, Mr. William Priest, sought health in Colorado he was with him, and accompanied his sister with her husband's remains. After a brief stay here he again returned to the life giving climate this time with his cousin, Tillman Hunt, of Clark county, going from one place to another searching in vain for health. In Arizona he was advised of the contagion of consumption, and believing he had contracted the wasting disease, he returned to his home, brooded over his troubles until he became a wreck mentally and physically, and for more than one year was a helpless invalid. No man was more faithfully cared for than was John D. Hunt. His death was from tuberculosis of the brain. He knew his only relief was death and many times did he pray that the end might come quickly. He had many friends, and no more polite, considerate and obliging man ever lived or died. Wednesday his funeral was preached at the grave by Rev. W. J. Bolin, of the Baptist church. The loving kindred have our profound sympathy in their sorrow.

Wm. Sponcel, of Johnson Station, and Miss Ida Rose, daughter of Povel Rose, were married on Wednesday, Feb. 27, by Rev. Wilhoit, at the bride's home, near Olympia.

"When I was prostrated with grip and my heart and nerves were in bad shape, Dr. Miles' Nervine and Heart Cure gave me new life and health."—Mrs. Geo. Colie, Elgin, Ill.

A brisk breeze prevailed some hours on Sunday. Signs, billboards, window shutters, etc., were tossed around quite briskly. A chimney on the Episcopal church was wrecked and broke through the roof, a cedar tree in Mrs. Crawford's yard was broken down, the cornice and side wall of the butcher shop occupied by Louis Walz were blown down and a few other damages resulted.

## RELIGIOUS.

Rev. W. S. Fulton, for 17 years pastor of the Second Presbyterian Church, Lexington, has accepted a call to a church in Pittsburg, Pa.

Rev. H. D. Clark on yesterday went to Hazel Green, where he will conduct a meeting in the Christian church. He is an able preacher and the people of the community should hear him.

Rev. G. A. Joplin, pastor of the First Presbyterian church, is confined to his home with carbunkle and was not able to fill his pulpit Sunday.

Bishop Burton officiated at the Episcopal church Sunday when five persons were confirmed: Mrs. Henry Reese, Misses Louise Hoffman and Francis Howell, Henry Barnes and George Abblitt.

## Frank Thompson's Sale.

A large crowd attended Frank Thompson's sale Tuesday. Milch cows brought \$35 to \$50; calves, \$16 to \$23; horses, \$20 to \$100; 3 gites, \$16.75; 19.25; one sow and five pigs, \$16.75; 48 ewes, \$5.05 per head; corn in crib, \$2.25 to \$2.20 per barrel; hay \$18 to \$27 per stack.

Don't be pulled and jolted into buying something that you'll regret. Size up the field from a good standpoint and buy where you can get the best at the lowest price. We are offering special bargains in made-to-measure suits until the 10th. Suits from \$12.50 up. See Walsh Bros.

Every age has its distinctive type of "requisite" and in "Quo Vadis" we get a good portrait of the Roman "Class of Fashion," in the person of Petronius. He is elegant, cultured, yet a man of great magnetic power, quick perception and keen insight into character. He epitomizes the evidence by his coolness in the midst of danger, and by his debonair ways in general. Mr. R. F. Rutledge has made a pronounced hit in this role with the Carpenter production.

Among the victims of the grip epidemic now so prevalent, E. Coyle is now recuperating at Canton, O., by the use of Dr. Miles' Nervine and Pills.

For Constipation Take Lyon's Laxative Syrup; if you don't like it better than any laxative you have ever used your druggist will refund the money. Price 50c.

# Tired and Nervous

It is easy to tell when your nerve-force and vital power are slipping away from you. When your day's work leaves you weary and exhausted; when you are so nervous, irritable and sleepless that your nights are passed in restless tossing; when you get up in the morning with no appetite for breakfast, and go around all day with a headache; you may be sure your nervous strength is being used up faster than it is being renewed.

"I was troubled a great deal with nervousness and headache. The least exertion would cause a dreadful pain in the head and when I became excited I would lose entire control of my nerves. I lived in that misery for ten years, failing to get relief until I began using Dr. Miles' Nervine. Within a week my friends were remarking how much better I looked, and soon after I found my health restored."—Mrs. LOUIS ELGO, Idaho Falls, Idaho.

# Dr. Miles' Nervine

Gives the tortured nerves a rest, helps them regain their tone and steadiness, and is a speedy remedy for nervous troubles of every kind.

## Sunday's Wind.

A brisk breeze prevailed some hours on Sunday. Signs, billboards, window shutters, etc., were tossed around quite briskly. A chimney on the Episcopal church was wrecked and broke through the roof, a cedar tree in Mrs. Crawford's yard was broken down, the cornice and side wall of the butcher shop occupied by Louis Walz were blown down and a few other damages resulted.

A chimney of A. Hoffman's residence was taken off. Two chimneys of store occupied by J. W. Barnes broke through the roof. An \$85 engraving machine was destroyed, the plastering of the room torn off and a chamber set broken and other losses sustained. Joseph Johnson's residence, near Sideview, lost roof on one side. In the country hay and fodder were widely scattered, ready for feeding, thus saving the farmers some work.

## Fire at Lexington.

At 11:30 o'clock on Saturday night the night clerk at the Phoenix Hotel discovered fire in the Meglone clothing store in the corner room of the hotel building. The fire was brisk and appeared to be in different parts of the room where discovered. The fire was confined to the one room, but owing to dense smoke which filled the halls and rooms of the hotel there was much excitement among the guests, and some had thrilling experiences escaping by sheet ropes and ladders from second and third stories. No lives were lost. The contents of the store valued at \$25,000 were practically destroyed by fire, smoke and water. The insurance was \$18,000. Damage to hotel was slight.

## Bargains! Bargains! Bargains!

## HEALTHY HAIR

A man with a thin head of hair is a marked man. But the big bald spot is not the kind of a mark most men like.

Too many men in their twenties are bald. This is absurd and all unnecessary. Healthy hair shows man's strength. To build up the hair from the roots, to prevent and to cure baldness, use—

## AYER'S HAIR VIGOR

**Bridget Wasen't Slow.**

A lady had an Irish girl in her employ. She was an excellent servant, but could not be induced to keep herself clean. The mistress had in vain spoken plainly, and at last tried strategy.

"Bridget," said she, confidentially one day, "do you know that if you wash your face daily in hot soapy water it will make you beautiful?"

Whereupon she was met with the unexpected reply, "Sure, an' it's a wonder ye never tried it yourself, mum."—Leslie's Weekly.

### INTERPOLATION IN MEMORY

Slight Variation in Things Very Similar Have to Be Counted Upon

The expert violinist who has a feeling for correct intonation, who has a "good ear," in common parlance, has to adapt his fingering to each strange instrument—say, and to each fresh string; for the intervals are never mathematically true, and vary with each fiddle and with each string. The pianist, says the Contemporary Review, has to graduate differently the minute variations of touch to the varying resistance and resonance of each instrument. A billiard player may have learned something of the laws of reflection of moving bodies, and possibly have a hazy glimmer of the subjects of friction and spin and imperfect elasticity, though these involve such high mathematical powers for conscious solution that it is doubtful whether any champion has mastered them. But even had he done so, he would require for their application to each table, each ball, each cue, a preliminary investigation into their several "constants," and given all those, such problems are not to be worked out in the limited time an expert spends between two successive strokes of a break. Nor could he thereby, after trying a few strokes on a new table, allow, at once, as he does, for its "fastness," resiliency, and truth, different from any he has known.

### The Famous Roman Roads.

The Roman roads were built on the Telford plan, with a substratum of heavy blocks of the stone most abundant in the neighborhood, covered with a layer of smaller stones or gravel. They were highest in the middle, with a trench on each side to carry off the water, and no trees or shrubs were allowed to grow within 100 paces on either hand. The population of the districts through which these highways passed were required to keep them in order and to cut down weeds and shrubbery within the proscribed distance.

### Many Miles of Bridges.

The Siberian railway will cross almost thirty miles of bridges, and of these the lines of Irkutsk required a large number, including such important ones as those over the Irtysh, at Omsk, 700 yards; over the Ob at Krivoshekov, 840 yards; over the Yenisei at Krasnoyarsk, 930 yards, and over the Uda at Nijni Udinsk, 359 yards.

### Little Difference in Effect.

It is hard to tell these days if a girl didn't take time to comb her hair, or took the time to comb it in the latest fashion.—Atchison Globe.

### Stops the Cough and Works off the Cold.

Laxative Bromo-Quinine Tablets are a relief in one day. No cure, no pay. Price 25 cents. Get it at your drug store.
